

December 1, 2011.

The data documentation is described below:

1) ARRASpending.dta: dataset with FMAP, SFSF, and Other outlays and obligations by state. The dataset is a panel with data for May19, 2009 (earliest state-level breakdown available) and then the last day of each subsequent quarter. The rows without state names correspond to outlays that aren't tracked in the FARs at the state level (like the payments to seniors). So the simplest thing to do with it would be (keep if date==td(30june2010)) then merge on the state abbreviation. Data were downloaded weekly from www.recovery.gov.

2) state_controls.dta:

Region dummies: We use the 9 census regions.

Employment manufacturing, share: A measure of the state's concentration in manufacturing from 2005-2007. From the U.S. Department of Commerce, Bureau of the Census, American Community Survey, Accessed September 1, 2009.

Share_kerry: The percent of the state's electorate that voted for John Kerry in the 2004 presidential election.

Union_share: Share of workers affiliated with a union in 2007. U.S. Department of Labor, Bureau of Labor Statistics, January 28, 2009, "Union Members in 2008."

gdp_2008: A measure of a state's 2008 per capita GDP. Data are from the Bureau of Economic Analysis.

3) pop16plus_cleaned.dta: Downloaded from Haver Analytics on July 20, 2010. Data are from the CPS and are of the civilian noninstitutional population for December 2008.

4) ImputedEmploymentxx-xx.dta: Do-files to produce these data and documentation are found in the folder `programs/imputed_employment/`.

5) FHFA.dta: We use the percent change of the state's housing price index as measured by the Federal Housing Finance Agency House Price Index from 1999Q4 to 2004Q4.

6) state_medicaid_spending_instrument.dta: We use data from Centers for Medicare and Medicaid Services Data Compendium 2008 Edition table VII.1 for data on total 2007 Medicaid spending.

7) StatePredictions: Data are produced from running `programs/Forecasted_Employment`.

8) CES: Documentation within the folder. See the do-file `"getCESdata.do"`.

9) Dem_Gov: Documentation within the folder. See the excel spreadsheet `dem_gov`.

10) Haver Data July 13 2010: Documentation within the folder. See `"readme.txt"`.

11) State_Budget_Rule: Documentation within the folder. See `state_budget_rule.xls`.

12) State_UI_Laws: Documentation within the folder. See `state_UI_laws.xls`.

13) StateBudget: Documentation within the folder. See `Tables.xls`.
