

**Readme File for “Racial Differences in Police Use of Force: Evidence from
the 1960s Civil Disturbances”**
Jamein P. Cunningham and Rob Gillezeau
January, 2018

A. Datasets

There are two datasets included

1. Data to replicate Table 1 - “aeapp_protests_table_1.dta”: contains mortality counts, covariates, weights and riot variables.

Contains data from ~\Desktop\AEAPP\data\aeapp_protests_table_1.dta
 obs: 88,856 County and City Data Book [United States] Consolidated
 File: County Data, 1947-1
 vars: 29 12 Jan 2018 18:32
 size: 11,551,280 (_dta has notes)

variable name	storage type	display format	value label	variable label
fips	double	%9.0g		Stfips + Cofips
year	float	%9.0g		year
treatment	float	%9.0g		0/1 if uprising ever
deaths_police	double	%9.0g		Deaths by Police Intervention
deaths_w_police	double	%9.0g		White Police Deaths
deaths_nw_police	double	%9.0g		Non-White Police Deaths
firstriot	float	%9.0g		year of first uprising
x_dentrend	float	%9.0g		pop per sq mile x trend
x_blacktrend	float	%9.0g		% pop black x trend
x_uetrend	float	%9.0g		LFPR Unemp x trend
x_pubtranstrend	float	%9.0g		% worker public tran x trend
x_povertytrend	float	%9.0g		% faminc < 3K x trend
x_whiteinctrend	float	%9.0g		med fam inc white x trend
x_blackinctrend	float	%9.0g		med fam inc blk x trend
x_pubasstrend	float	%9.0g		#pub asst recipients x trend
x_owntrend	float	%9.0g		black owner occupied x trend
stfips	float	%9.0g		state FIPS code
_60totpop	double	%10.0g		(sum) _60totpop
_popwgt	double	%12.0g		Population Weight based on 1960 Total Population
_popwgt_w	double	%12.0g		Population Weight based on 1960 Total Population White
_popwgt_nw	double	%12.0g		Population Weight based on 1960 Total Population Non-White
joint	float	%9.0g		pre/post treatment group
_0joint_1	byte	%8.0g		joint==2
_0joint_2	byte	%8.0g		joint==1
_0joint_4	byte	%8.0g		joint==1
_0joint_5	byte	%8.0g		joint==2
_0joint_6	byte	%8.0g		joint==3
_0joint_7	byte	%8.0g		joint==4
_urban	float	%9.0g		0/4 for urbanicity category

2. Data to replicate Table 2 - "aeapp_protests_table_2.dta": contains mortality counts, covariates, weights and riot variables & crime related variables.

Contains data from ~\Desktop\AEAPP\data/aeapp_protests_table_2.dta

obs: 88,827 County and City Data Book [United States] Consolidated File:
County Data, 1947-1
vars: 32 12 Jan 2018 18:32
size: 12,613,434 (_dta has notes)

variable name	storage type	display format	value label	variable label
fips	double	%9.0g		Stfips + Cofips
year	float	%9.0g		year
treatment	float	%9.0g		0/1 if uprising ever
firstriot	float	%9.0g		year of first uprising
x_dentrend	float	%9.0g		pop per sq mile x trend
x_blacktrend	float	%9.0g		% pop black x trend
x_uetrend	float	%9.0g		LFPR Unemp x trend
x_pubtranstrend	float	%9.0g		% worker public tran x trend
x_povertytrend	float	%9.0g		% faminc < 3K x trend
x_whiteinctrend	float	%9.0g		med fam inc white x trend
x_blackinctrend	float	%9.0g		med fam inc blk x trend
x_pubasstrend	float	%9.0g		#pub asst recipients x trend
x_owntrend	float	%9.0g		black owner occupied x trend
stfips	float	%9.0g		state FIPS code
_60totpop	double	%10.0g		(sum) _60totpop
_popwgt	double	%12.0g		Population Weight based on 1960 Total Population
_popwgt_w	double	%12.0g		Population Weight based on 1960 Total Population White
_popwgt_nw	double	%12.0g		Population Weight based on 1960 Total Population Non-White
joint	float	%9.0g		pre/post treatment group
_Ojoint_1	byte	%8.0g		joint==2
_Ojoint_2	byte	%8.0g		joint==1
_Ojoint_4	byte	%8.0g		joint==1
_Ojoint_5	byte	%8.0g		joint==2
_Ojoint_6	byte	%8.0g		joint==3
_Ojoint_7	byte	%8.0g		joint==4
agency	long	%9.0g		# of reporting agencies in the county
report_crime	double	%9.0g		# of agencies reporting in year t
report_pol	double	%9.0g		# of agencies reporting more than zero total sworn officers
full_crime	double	%9.0g		# of agencies reporting for 12 months in year t
lp_tot	float	%9.0g		log of total crime per 100K
lp_sworn	float	%9.0g		log of sworn officers per 1K
_urban	float	%9.0g		0/4 for urbanicity category

B. Do-Files

The two dofiles replicates of Table 1 and Table 2. The file "master_AEAPP" sets the pathnames and runs the analysis. Below is the list of dofiles.

```
"$dofile/master_AEAPP.do"
"$dofile/eventsstudy_AEAPP_tables.do"
```
