

Do College Graduates Serving as Village Officials Help Rural China?

By GUOJUN HE AND SHAODA WANG*

Datasets:

1. **workfile_AEJ:**

Main data set used to estimate the impacts of CGVOs, used to generate results for Tables 4, 5, 6, 7, 8 and Appendix Tables.

2. **community_survey_poor_hhs_AEJ**

3. **community_survey_residents_AEJ**

4. **community_survey_village_AEJ**

Cross-sectional village survey data. Used to generate results in Table 3.

5. **community_merged_AEJ**

Poor households survey merged with village survey. Used to generate results in Table 9.

Do files:

1_CGVO_Main_Tables: do file used to generate results in the main tables of the paper

2_CGVO_Appendix_Tables: do file used to generate results in the appendix tables

3_CGVO_Figures: do file used to draw the figures in the paper

4_Wild_Bootstrapping: Using wild bootstrapping to calculate p-values for the main outcome variables. The do file uses the subsidized population as an example. Replacing the outcome variable and explanatory variable in the do file can generate new sets of results.
