

COMMON TONGUE: THE IMPACT OF LANGUAGE ON EDUCATIONAL OUTCOMES

Tarun Jain

Journal of Economic History

The user written `Common_tongue_do.do` code requires the Stata 13 or later version.

To run the code, download `Common_tongue_dataset.dta` and save the file in the Stata working directory, and run the `Common_tongue_do.do` file.

The following tables are generated.

Table 4(a): Result for education in minority versus majority districts (A)

Table 4(b): Result for education in minority versus majority districts (B)

Table 5: Result for education in minority versus majority districts (Border districts test)

Table 7: Results for educational outcomes by linguistic distance

Table 8: Results for educational outcomes using *MinorityFraction*

Table 9: Result for education before and after reorganization in minority versus majority districts

Table 10: Result for education outcomes before and after reorganization by linguistic distance
