

READ ME FILE

PAPER INFORMATION:

Paper: "Can Alcohol Prohibition Reduce Violence Against Women?"

Authors: Dara Lee Luca, Emily Owens, and Gunjan Sharma

Journal: American Economic Review, Papers & Proceedings

Date: March 5, 2015

DATA FILES:

LeeLucaOwensSharma_AER_PP_NFHSDData.dta

Contents: Contains individual health and state level demographic and policy data necessary to replicate Table 1 in the paper (see variable list below).

Sources: National Family Health Survey, India, 1998 and 2005 Waves, Independent data collection on Indian state laws, Census of India, National Crime Records Bureau.

LeeLucaOwensSharma_AER_PP_CrimeData.dta

Contents: Contains state level crime, demographic, and policy data necessary to replicate Table 2 in the paper (see variable list below).

Sources: Independent data collection on Indian state laws, Census of India, National Crime Records Bureau.

PROGRAM FILES:

LeeLucaOwensSharma_AER_PP.do

Calls on LeeLucaOwensSharma_AER_PP_NFHSDData.dta and LeeLucaOwensSharma_AER_PP_CrimeData.dta, runs regressions to generate results in Table 1 and Table 2 in the paper. To run program, place it and the dataset in the same directory.

A log file will be created

(LeeLucaOwensSharma_AER_PP_Results.txt) that contains the regression results, along with three comma delimited files (Table1A.csv, Table1B.csv, and Table2.csv) containing the table elements.

Bootwildctpopwt.ado

This is a minor modification of the .ado file "bootwildct.ado," written by Bansi Malde and Molly Scott, version 26.09.12. We added a population weight to the looped regressions where the null hypothesis was imposed, on lines 113 and 141.

RESULTS FILES:

Running **LeeLucaOwensSharma_AER_PP.do** generates four files: one text file and three comma delimited files:

LeeLucaOwensSharma_AER_PP_Results.txt

Presents summary statistics and regression results for Tables 1 and 2 in the paper.

LeeLucaOwensSharma_AER_PP_Table1A.csv

Creates first row and observation counts of Table 1

LeeLucaOwensSharma_AER_PP_Table1B.csv

Creates second row of Table 1

LeeLucaOwensSharma_AER_PP_Table2.csv

Creates elements of Table 2
