DATA COLLECTION DESCRIPTION

United States Department of Education. National Center for Education Statistics

COMMON CORE OF DATA: PUBLIC EDUCATION AGENCY UNIVERSE, 1989-1990 (ICPSR 2427)

SUMMARY: This dataset contains records for each public elementary and secondary education agency in the 50 states, District of Columbia, and United States territories (American Samoa, Guam, Puerto Rico, the Virgin Islands, and the Marshall Islands), as reported to the National Center for Education Statistics by the state education agencies. Each record provides state and federal identification numbers; agency's name, address, and telephone number; county name and FIPS code; agency type code; student counts; graduates and other completers counts; and other codes for selected characteristics of the agency. Information on grade span and on the number of schools, classroom teachers, and staff is also included in most cases.

UNIVERSE: All public elementary and secondary education agencies in the 50 states, District of Columbia, and United States territories (American Samoa, Guam, Puerto Rico, the Virgin Islands, and the Marshall Islands).

NOTE: The codebook and data collection instrument are provided as a Portable Document Format (PDF) file. The PDF file format was developed by Adobe Systems Incorporated and can be accessed using PDF reader software, such as the Adobe Acrobat Reader. Information on how to obtain a copy of the Acrobat Reader is provided through the ICPSR Website on the Internet.

PART I — SURVEY SUMMARY

A. TITLE Common Core of Data Public Education Agency Universe, 1989-90

B. DESCRIPTION This tape contains 16,967 records, one for each public elementary and secondary education agency in the 50 states, District of Columbia, and 5 outlying areas, as reported to the National Center for Education Statistics by the state education agencies. Each record should contain state and federal ID's, name, address and telephone number of the agency, county name and FIPS code, agency type code, student counts, graduates and other completers counts, and other codes for selected characteristics of the agency. In addition, grade span, number of schools operated by the agency, and number of classroom teachers were aggregated from the CCD Public School Universe.

GRADE RANGE	AN	157-160	4	Derived from Public School Universe	NCES codes for the span of grades with student counts reported, for all schools associated with this agency on the CCD Public School Universe for this school year. The following codes may be used: PK = Prekindergarten KG = Kindergarten 01 -- 12 = First through Twelfth Grade UG = Ungraded 00 = Used for agencies which either have no associated schools or all associated schools lack student counts. UG and 00 each occurs only in isolation from other codes. When one of these does occur, it is considered to be both the lowest and the highest grade.
- LOW GRADE	AN	157-158	2		NCES code for lowest grade
- HIGH GRADE	AN	159-160	2		NCES code for highest grade
NUMBER OF SCHOOLS	N	161-165	5	Derived from Public School Universe	Aggregate number of schools associated with this agency on the CCD Public School file
TEACHERS	N	166-171	6	Derived from Public School Universe	Aggregate number of classroom teachers reported for schools associated with this agency on the CCD Public School file. This is NOT necessarily the total number of teachers employed by this agency.

Comments for Users of Data Tape

1. Users of this file need to be aware that there are legitimate records which have no student counts. Some regular school districts contract with other agencies to provide services for some students rather than operate schools for these students directly. These student counts are not reported for the receiving district in order to avoid duplication. Conversely, in cases where all services are provided by a contracting district, no student counts are reported for the sending district. Student counts are also not generally attributed to supervisory union administrative centers or regional education service agencies.

2. Grade span of the agency and number of classroom teachers and schools operated by the agency are not collected as part of the education agency universe. However, since these are often useful data for analysis, those data were derived from the individual school records on the Public School Universe file.

a. For number of schools and total classroom teachers, the data represent the total number of school records associated with each agency record and the sum of the classroom teachers reported for each of those school records. This is not necessarily the total number of teachers employed by the agency, since some teachers may not be assigned to a particular school. Massachusetts and Rhode Island did not report classroom teachers on the Public School Universe and therefore are missing that item on this file.

b. The grade span was derived by first summing the enrollment by grade for all schools associated with each agency. Then, the lowest grade and highest grade with any student count were determined.
