

README
openicpsr-136741

Steps for Reproduction:

1. Begin with Cleaning_files folder (These do files will use .dta files in Input_data folder)
Note: Setup_file should be executed first. Setup_file will install packages psacalc, binscatter, estout, coefplot
Note: POP do files should be executed next
 - Order doesn't matter after all POP files are executed
 - Once all do files are executed, Analysis_data files will be created
2. Results_inpaper files will use Input_data and Analysis_data to produce .tex files and graphs used in paper.

Notes:

1. Figures 2, 3, 8, and 9 were made using tools in ArcGIS. I no longer have access to ArcGIS and cannot provide steps to create these figures. However, I have included the files used to create these figures (Lynching_GIS_RAND.csv, Polling Locations Duplicates Removed.csv, nhgis0124_shapefile_tl2010_us_county_2010.zip, nhgis0125_shapefile_tl2010_us_tract_2010.zip) Please note that these figures are not used for analysis and are simply figures to help visualize information.
2. Psacalc, binscatter, and estout packages are needed to execute Maindo; coefplot is needed to execute Southernfocus.do
3. Input_data contains input data files
4. Analysis_data contains analysis data files (created from Cleaning_files folder do files)
5. Latex_files contains .tex tables and figures in manuscript; also includes manuscript .tex files

Do files:

Createmain – creates maindata.dta

Maindo – creates Figures 5 (line 29), 6 (line 80), 7 (line 84); Tables 1 (line 21), 2 (line 46), 3 (line 66), 4 (line 91), 5 (line 103), 8 (line 131); Appendix Tables B2 (line 161), B3 (line 226), B4 (line 178), B5 (line 191);

- uses – maindata.dta

CollinsWanamaker – creates Table B6 (line 50)

- uses – collinswanamaker1910_30.dta

Pollinglocations – creates Table 7 (line 15)

- uses polllocation.dta

Historicalregvot – creates Table B1 (line 16) and Figure 1 (line 24)

- uses historicalreg.dta

Proact – creates Figure 4 (line 27)

- vra.dta

Southernfocus – creates Figure 10 (line 27)

- uses southernfocus.dta

Migration – creates Table 6 (line 96)

- migration1935.dta
